

Week 10 16/11/18

## 7 Key Features of a Stopsley Student

1. Punctual
2. Presentable
3. Prepared
4. Respectful
5. Focused
6. Co-operative
7. Determined To Succeed

## Headteacher's Letter

Dear parents & carers

It was a delight to celebrate with last year's Year 11 students at the awards evening this week. Our students' achievements were excellent this year and we were so proud of them all. This was a time to reflect on the friendships and memories that we all make in our time at school. Some of these friendships will last a lifetime and the lessons learned will equip our students for the world of opportunity before them. We wish them all the best.

With our current Year 7 and 8 students we have issued a KS3 Independent Learning Booklet that is also on the website [link](#). It is designed to offer support and guidance for students to develop their study skills away from the classroom. Please take a look and encourage them to use it for homework and private study.

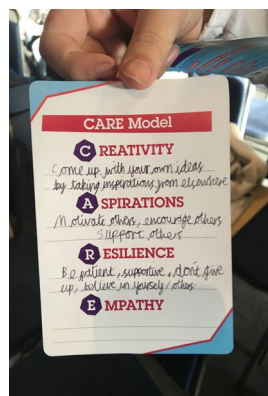

Our extracurricular activities timetable is available and can be found on our [website](#).

Have a good weekend.

Karen Johns

## Healthy Lifestyle Champions Conference

On Wednesday 14th November we took a group of year 9 students to a conference in Birmingham to become young health champions. They have completed the training and will be working with a group of year 7 and 8 students to promote a healthy lifestyle ethos. They will plan and run a festival for 60 students with support from an athlete who will mentor them. Watch this space for updates.

## Term Dates

School Closes: Thursday 20<sup>th</sup> December, Finish at 2:10pm

Teacher Training Day: Monday 7<sup>th</sup> January 2019

School Opens: Tuesday 8<sup>th</sup> January 2019

## House Points Board

## Geography Field Trip

On Wednesday 14th November, 57 students from the two classes of GCSE Geography embarked on a trip to Cromer beach in Norfolk. The three hour bus ride each way was not enough to ruin their spirits before they spent the afternoon investigating the effect coastal management has on the erosion in Cromer. On top of measuring the gradient, counting waves, making field sketches and enjoying some fresh fish and chips the students were asked to interview a number of locals to get some qualitative data. The teachers on the trip (Ms. Duvenage, Mr. Uddin, Mr. Tataryn and Mr. Bacci) were approached numerous times by residents asking which school these pupils had come from and commenting on how well-mannered and respectful they were. The students represented the school excellently while learning about coastal management and erosion in a far more meaningful way than any text book could ever do for them.
