

9th November 2020

Dear Parent/Carer,

We have been advised by Public Health England that there have been 2 confirmed cases of COVID-19 within your child's year group bubble. We have met and spoken to your child to explain to them how we will continue to support their education and their well-being whilst they are self-isolating. Your child will be required to stay at home and self-isolate up to and including **Friday 20th November 2020** and will then return to school as normal on Monday **23rd November 2020**.

Your child will continue to follow their normal school timetable and will be taught "live" lessons by their teachers. Where there are computer or internet issues we will work with you to provide alternatives. Please make contact with the school if this is the case for you.

Remember if your child is having any difficulties with accessing the lessons you can:

- Access the Student Survival guide on the website under the Information tab, which has all the links they will need to the different platforms
- Messages can be sent directly to the class teacher on Show My Homework (Satchel One)
- If they need their password reset they need to email: studentitsupport@stoppsleyhighschool.co.uk

If you or your child needs to speak to someone at the school, unrelated to their lessons, they can email the pastoral team who will be more than happy to help.

Mock Exams

We will be pausing Mock exams until the 23rd November. We will send home an updated timetable of the remaining mock exams for your child to help them plan their time accordingly.

What to do if your child develops symptoms of COVID

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared. The most common symptoms of coronavirus are:

- New continuous cough
- High Temperature
- A loss of, or change in, normal sense of taste or smell

All other household members who remain well must stay at home and not leave the house for 14 days.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community.

For most people, coronavirus will be a mild illness.

If your child does develop symptoms you can seek advice from NHS 111 at [Covid stay at home guidance](#) or by phoning 119. Please could you also inform the school by emailing attendance@stopsleyhighschool.co.uk.

Kind regards,
