

CATS

What are they?

Cognitive Ability Tests.

During the week of 9th to 13th September you will be asked to sit 3 onscreen tests.

These will test your ability to work with numbers, words and patterns and provide an indicator of future results in KS3 and KS4 tests. These are the most widely used tests of reasoning abilities in the U.K.

There is no revision needed, just do your best.

An explanatory booklet will be issued when you receive your results.

**** Do not worry about them! ****

Please try to get a good night's sleep before each test and make sure you eat breakfast so that you are able to think clearly
