General advice for students that they receive in lessons and assemblies

- Know what you do not know and work on it - small steps every lesson, every day, every week
- Excitement not anxiety, the only way you can ease anxiety is by working
- The clock is a count up not a countdown, there is time to make a difference
- The journey is part of the process - you will be a better person for this - more skilled more resilient- better character - more employable
- Keep your focus - find a mark per lesson
- Use your time wisely, use resources, books or apps that help your style of revision
