

Attendance matters. every student, every day, every lesson

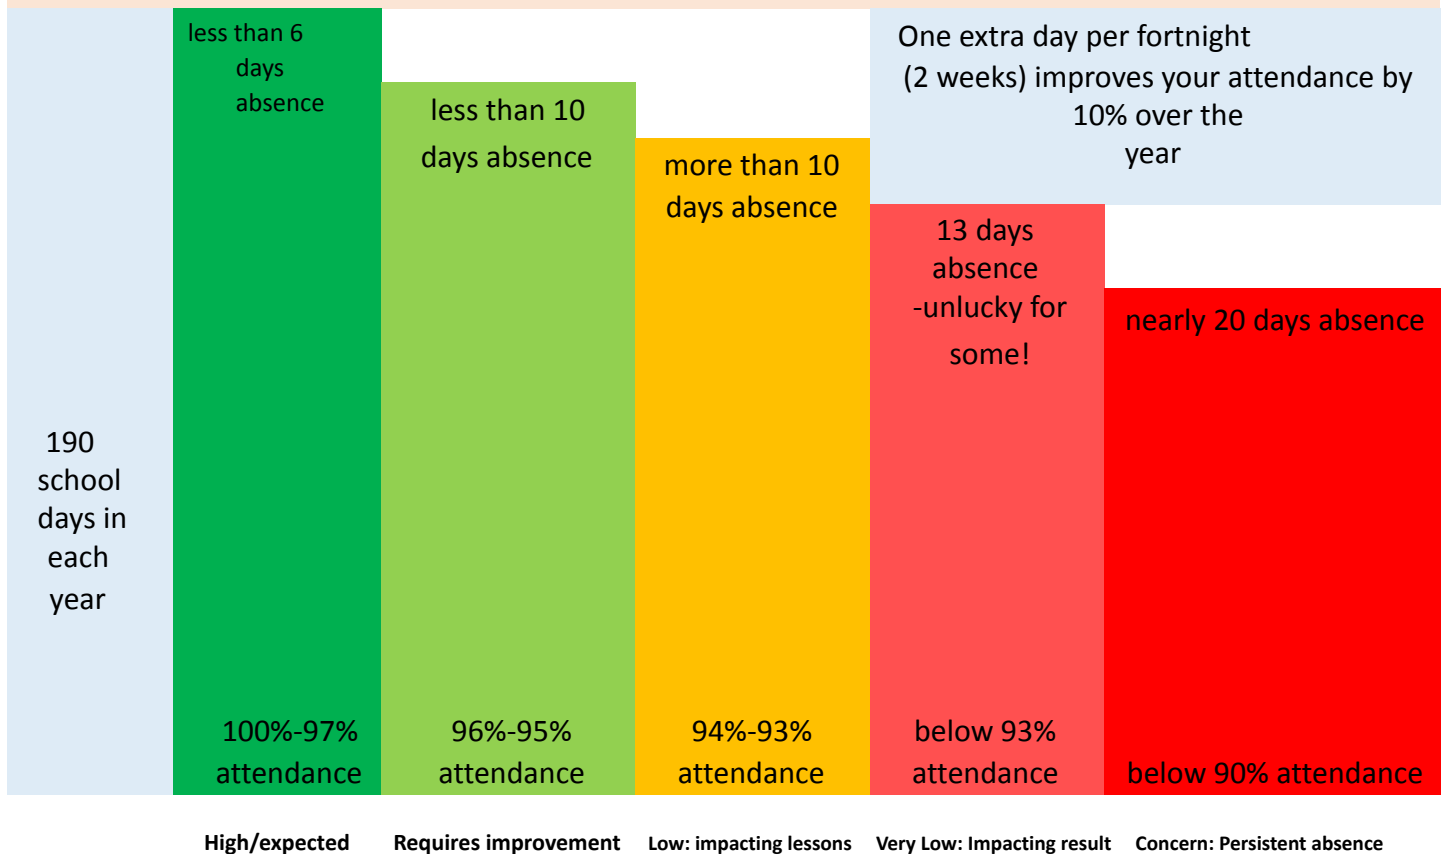

Good attendance at Stopsley High School means.....

being in school more than 97% of the time (180 to 190 days)

365 days in a calendar year 175 days not in school each year

.....so there are still 175 days a year for visiting friends and relatives, going shopping, going on visits / holidays or making routine appointments such as dentist or eye tests.

Over 80% of students with this level of level attendance get what is needed to progress to further study at A level or college*

Only about half of students with this of attendance are able to progress to the next level at A level or college

*From DfE report 2015 The link between absence and attainment
