

Next week Year 11 students will be taking part in a study skills workshop to highlight successful revision techniques and how to ensure a purposeful revision timetable is adhered to. This will also be balanced against ensuring their minds remain fixed on their goals and aspirations and how to manage worries and anxieties as the exams approach.

A reminder to all Year 9 Parents and Students to sign up to attend the Making Choices Subject Marketplace on Wednesday 12th February. During this evening you will have the opportunity to come into school with your child and find out more about the options process. You will be given a short talk in the hall to inform you about the process and then there will be an opportunity to freeflow around our subject marketplace speaking to the teachers of the options subjects and asking questions to find out about the course content and help inform your subject choices. Please follow this link to select your preferred time slot: Marketplace sign-up.

We received wonderful feedback from Luton Borough Council, Luton Sixth Form and Barnfield College regarding our students participating in the Environmental Action Day on Wednesday 5th February. The initiative was developed by the council in response to litter and anti-social behaviour concerns from the community. The overall objective was to initiate a programme of high visibility presence and tangibly show the community that their concerns are being addressed with collecting litter and speaking to the public about those concerns. The council also wanted the opportunity to speak to the students in all 3 settings to have their voices heard. Many thanks to all the students involved and to Mr Blanchard and Mr Rowles for organising and supervising their involvement.

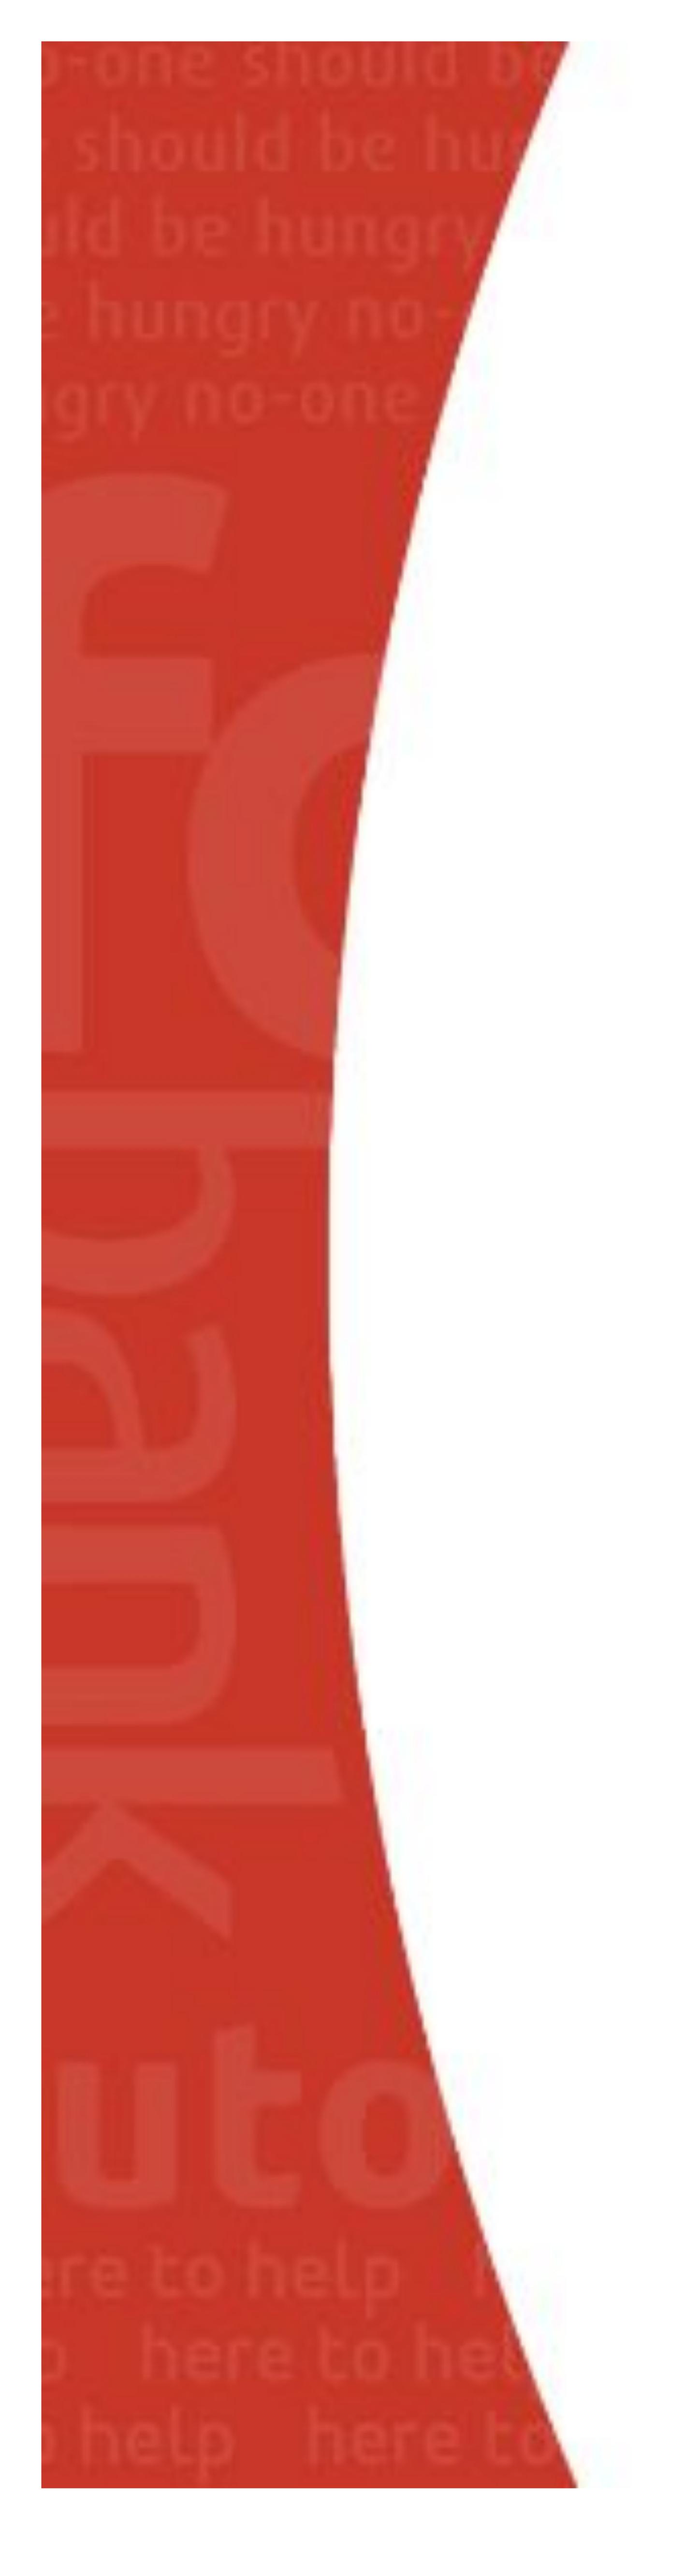

It is almost a year since we transitioned from SIMs being our management information system to Arbor. I'm delighted that over 84% of parents and carers are signed up and using the app but as a reminder I wanted to highlight to you the benefits of using the Arbor Parent app. On the Arbor Parent App you will be able to access your child's:

- Timetable
- Attendance
- Achievement and behaviour
- School progress reports
- Receive messages from the school

For further support and to get started click <u>Log into the Parent Portal and the Parent App</u> Arbor to access training resources to maximise the functionality of the app.

Best wishes,

MsHand

Certificate of Appreciation

presented to

Stopsley High School

for collecting 1,179 items for Advent 2024

Thank you for ensuring no-one goes hungry
