Data Retention Policy

Data Retention Policy

Trust schools have a responsibility to maintain its records and record keeping systems. When doing this, the school will take account of the following factors:

- The most efficient and effective way of storing records and information;
- The confidential nature of the records and information stored;
- The security of the record systems used;
- Privacy and disclosure; and
- Accessibility of records and record keeping systems.

This policy does not form part of any employee's contract of employment and is not intended to have contractual effect. It does, however, reflect the school's current practice, the requirements of current legislation and best practice and guidance. It may be amended by the school from time to time and any changes will be notified to employees within one month of the date on which the change is intended to take effect. The school may also vary any parts of this procedure, including any time limits, as appropriate in any case.

Data Protection

This policy sets out how long employment-related and pupil data will normally be held by the school and when that information will be confidentially destroyed in compliance with the terms of the UK General Data Protection Regulation (UK GDPR) and the Freedom of Information Act 2000.

Data will be stored and processed to allow for the efficient operation of the School. The school's Data Protection Policy outlines its duties and obligations under the UK GDPR.

Retention Schedule:

Information (hard copy and electronic) will be retained for at least the period specified in the attached retention schedule. When managing records, the School will adhere to the standard retention times listed within that schedule.

The retention schedule refers to all records regardless of the media (e.g. paper, electronic, photographic etc.) in/on which they are stored. All records will be regularly monitored by regular internal reviews and annual data audits carried out by an external provider.

Destruction of Records

The schedule is a relatively lengthy document listing the many types of records used by the school and the applicable retention periods for each record type. The retention periods are based on business needs and legal requirements.

Where records have been identified for destruction, they should be disposed of in an appropriate way. All information must be reviewed before destruction to determine whether there are special factors that mean destruction should be delayed, such as potential litigation, complaints or grievances.

All paper records containing personal information, or sensitive policy information should be shredded before disposal where possible. All other paper records should be disposed of by an appropriate waste paper merchant. All electronic information will be deleted.

Retention of Safeguarding Records

Any allegations made that are found to be malicious must not be part of the personnel records.

For any other allegations made, the school must keep a comprehensive summary of the allegation made, details of how the investigation was looked into and resolved and any decisions reached. This should be kept on the personnel files of the accused.

Any allegations made of sexual abuse should be preserved by the school for the term of an inquiry by the Independent Inquiry into Child Sexual Abuse. All other records (for example, the personnel file of the accused) should be retained until the accused has reached normal pension age or for a period of 10 years from the date of the allegation if that is longer.

In 2022 the Independent Inquiry into Child Sexual Abuse (IICSA) concluded and published their final report, leaving a recommendation that all records relating to child sexual abuse should be retained for a period of 75 years.

The ICO has not currently produced guidance or frameworks regarding retention as recommended by the inquiry. Until this has been produced, records will still be retained for a prolonged period as recommended initially by IISCA in order to fulfil potential legal duties that a school may have in relation to the inquiry or any further guidance.

Transferring Information to Other Media

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as digital media or virtual storage centres (such as cloud storage). The lifespan of the media and the ability to migrate data where necessary should always be considered.

Responsibility and Monitoring

School based Data Protection Lead has primary and day-to-day responsibility for implementing this policy. The Data Protection Officer, in conjunction with the school is responsible for monitoring its use and effectiveness and dealing with any queries on its interpretation. The Data Protection Officer will consider the suitability and adequacy of this policy and report improvements directly to management.

Internal control systems and procedures will be subject to regular audits to provide assurance that they are effective in creating, maintaining and removing records.

Management at all levels are responsible for ensuring those reporting to them are made aware of and understand this policy and are given adequate and regular training. **Student Records**

All schools with the exception of independent schools, are under a duty to maintain a student record for each student. If a child changes schools, the responsibility for maintaining the student record moves to the next school.
